

Aberdeen Western Route Installation

Actiform complete the design manufacture and installation of a brand new Site Office Facility on the prestigious AWPR project.

Lead provider to UK Civils

The *Actiform Group* are one of the leading suppliers of site accommodation to UK Civils Market, this is proven once again with our selection to provide the office accommodation on this high profile scheme.

Buildings Better By Design

All of the *Actiform Group* new buildings are designed with the client to provide a bespoke solution to meet exact requirements, this solution provides a user friendly building to include welcoming reception and lobby area, leading to offices, meeting rooms and an Induction suite with concertina partition divide, on the ground floor with a DDA compliant WC, the first floor comprises large open plan office spaces with a kitchen and WC facilities.

The building provides desk space for over 70 personnel and is complete with a comfort cooling air conditioning system.

‘On-time, on-budget’

The building was delivered on time and on budget taking just 3 weeks from delivery to hand over including all electrical, plumbing and air conditioning installation all overseen by our SMSTS qualified site manager

Tailored Modular Building Solutions

Unlike other Modular Building suppliers *Actiform Group* have again provided a solution to meet exact client requirements.

Actiform – providing innovative modular building solutions since 1986
